

Revenue & Growth

Revenue & Growth Analysis

How has revenue evolved across 2023, 2024, and 2025? Explore year-over-year trends, seasonal cycles, and whether each passing year has grown our top-line and maintained our margin health.

Monthly Revenue by Year (YoY Comparison)

Each line represents one fiscal year. Overlapping months reveal seasonal peaks and allow direct year-to-year comparison.

Total Revenue by Year

Is the business growing? 2025 is a partial year — factor in the mid-year cutoff when comparing against full years.

Avg Gross Margin % by Year

Is our pricing discipline holding? A stable or rising margin year-on-year means we are not sacrificing profitability for volume.

Monthly Avg Markup % Trend

Markup % shows how far above base cost we are pricing. Dips signal pricing pressure; spikes may indicate mix shift toward premium products.
